

Amendment #7
Issued on: July 19, 2006

Request for Proposal RFP-MQD-2007-002
QUEST Managed Care Plans to Cover Medicaid and Other Eligible Individuals Who Are Not Aged, Blind, or Disabled

#	RFP Section #	RFP Language	Amendment
1	Data Book	Reinsurance Recoveries	<p>Adding new document to the data book for reinsurance recoveries.</p> <p>Information contained in this document should be used in conjunction with the data book documentation dated July 7, 2006. The results of this analysis are based on the same assumptions and data used in the development of the data book, and should be considered an extension of that work.</p> <p>The analysis presented here is based on our understanding that if an individual enrolled in one of the Medicaid managed care plans accumulates more that \$150,000 of claims during the calendar year, the state will reimburse the health plan 85% of the expense greater than \$150,000 and 100% of the expense over \$1,000,000.</p> <p>Note that due to a variety of reasons including the random nature of large claims, the relatively small data sample generating these results, and the fact that we have not applied any trend assumptions these should not be considered projections of future experience.</p> <p>Enclosed is Table 3.</p>
